

Create A Database In Cloudant DB

Team ID: PNT2022TMID20345

Project : IOT Based Smar waste management for metropolitan cities

Aim:

To create a database in Cloudant DB to store location data.

Steps:

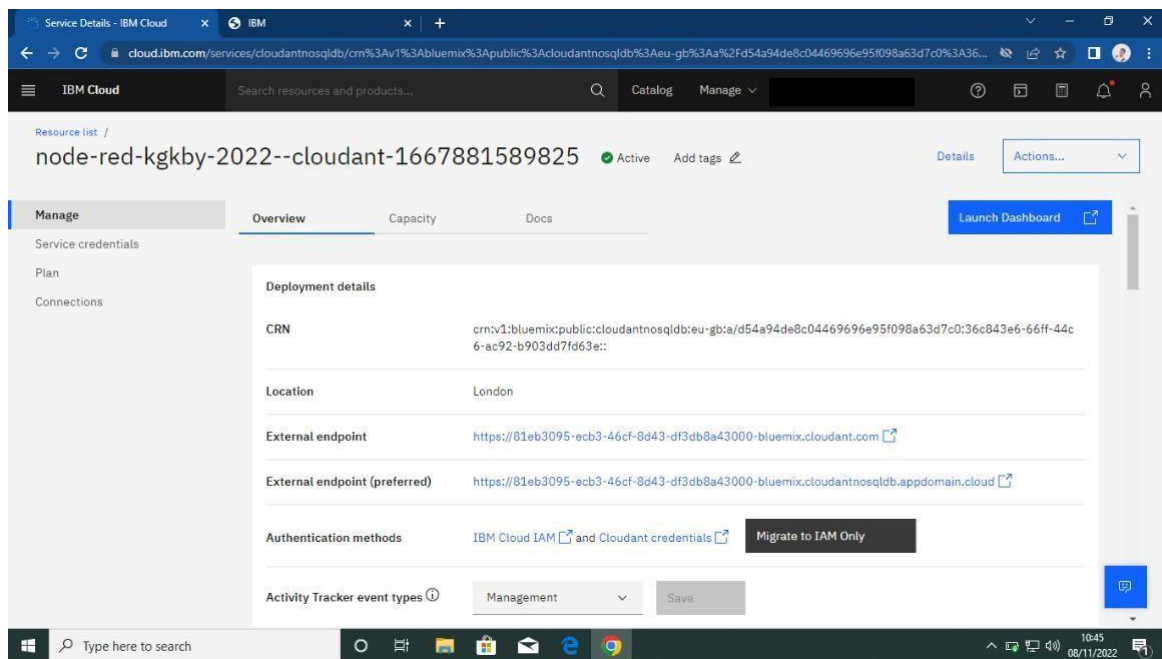

Logged in to IBM Cloud account

Navigated to `./resources`

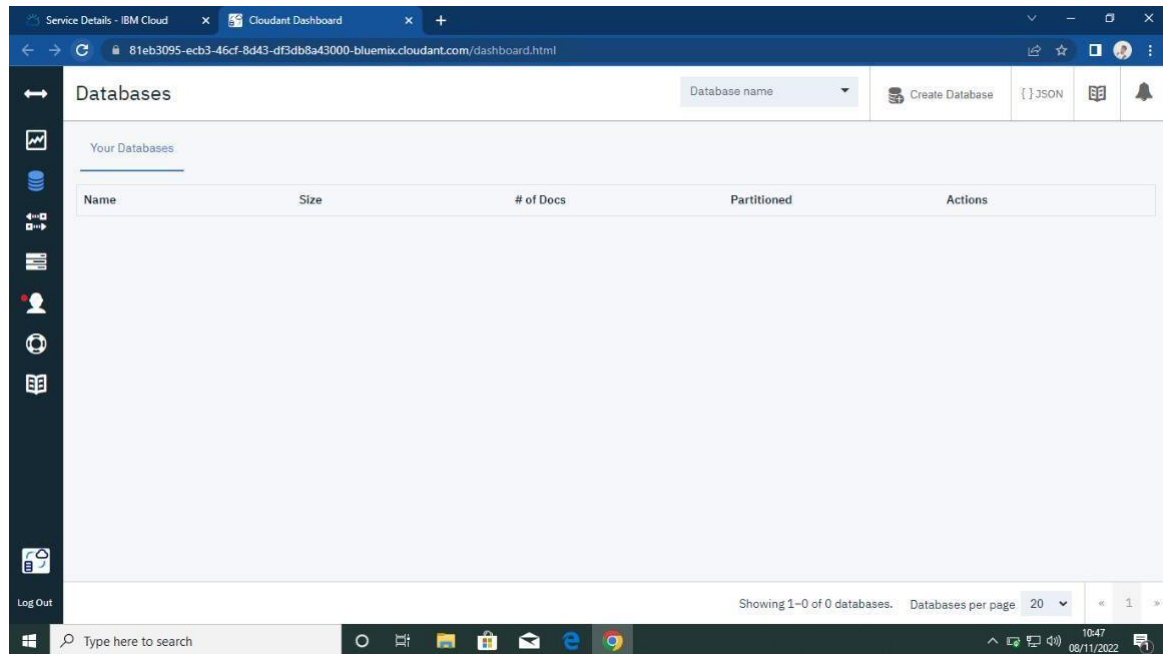

Clicked on the “Create Resource +”
button Searched for “Cloudant”

Chose the “Lite Version” and clicked on “Create”

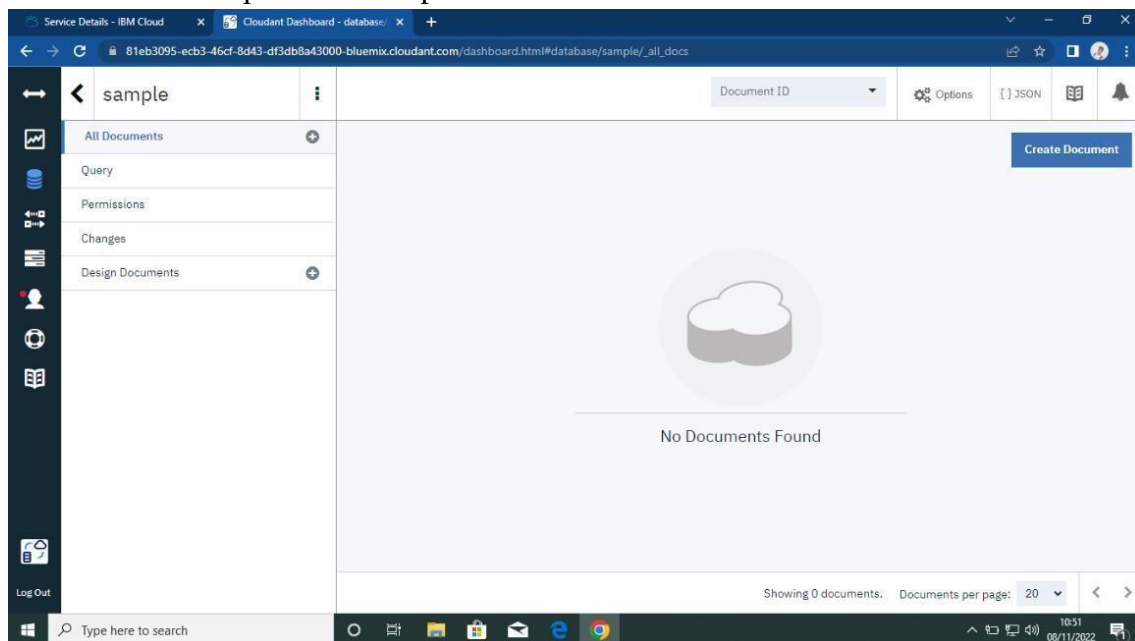

The Cloudant database resource was created successfully

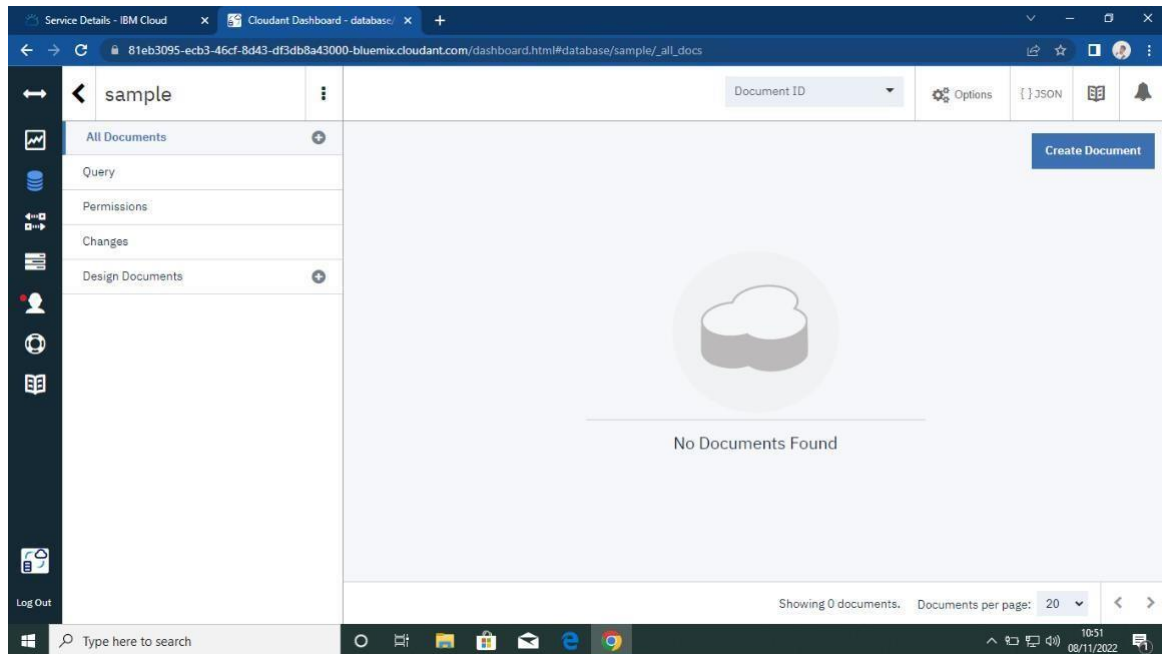

Clicked on Launch Dashboard.

Clicked on "Create Database". Entered "Sample" as the database name and the "Non-partitioned" option.

The database “Sample” was created successfully.

Result:

A database to store the location data was created successfully on CLOUDANT DB.
